FLOATING | SHELVES

SAFETY & INSTALLATION

- Install indoors ONLY
- Shelf hardware MUST be installed into a wall with studs (16" on center)
- Take caution to avoid electric wiring or plumbing lines in your walls
- Installation into any material other than painted drywall is prohibited
- Shelf brackets must be positioned on the centerline of the stud. Failure to correctly locate brackets may result in collapse
- Make sure to follow building code for your location
- DO NOT exceed maximum load:
 - 20lbs for 18" & 24" shelf
 - 40lbs for 36" & 48" shelf
- Floating shelves should not be mounted over a heat source
- Recommended fastener: 1/4" lag bolt with a flat washer
- Shelf slides over MDF bracket (bracket details below)
